Thailand Board of Investment

Sponsored Seminar: Australian Company Investment to Thailand

New Markets, New Opportunities, New Business Models

The Thailand Board of Investment is currently promoting foreign investment, especially by Australian manufacturing companies looking to expand their business into S.E Asia, with a combined domestic market of over 600 million people, and the AEC commencing in 2015.

Thailand is in an ideal location as a leading economy in the region and gateway into China, India, Myanmar, Laos, Cambodia, Vietnam, Malaysia and Singapore.

Come and hear what local Australian/Thai business people have to say about "doing business in Thailand" and what the BOI has to offer as incentives to FDI's. BOI will be represented by one of its most senior executives.

Half day seminars will be held in the Sydney, Melbourne and Adelaide at the offices of Pitcher Partners, independent member of Baker Tilly International, 8th largest accounting group globally. The Senior Trade Commissioner to Thailand will also be available for discussions. These seminars are suitable for those in auto manufacturing and supplies, engineering companies and toolmakers and general manufacturers.
