

# **KEYS TO SUSTAINABLE GROWTH IN THAILAND**

# **FOR CHINESE INVESTORS**

**NARIT THERDSTEERASUKDI  
SECRETARY GENERAL  
THAILAND BOARD OF INVESTMENT  
5 MARCH, 2026**

**Rapid global shifts are redefining the investment landscape, requiring investors to recalibrate strategies to maintain competitiveness.**

## **Geopolitics & Geoeconomics**

Investment expansion to diversify risk and restructure supply chains in response to global geopolitical shifts

## **Technology Disruption**

Expansion of digital infrastructure and advanced technologies – especially AI

## **Sustainability**

Increasing demand for renewable energy and the rapid expansion of green investments

# 10 KEY STRENGTHS OF THAILAND AS A GLOBAL INVESTMENT DESTINATION

**1 Well-developed Infrastructure**  
Sufficient & stable utility supply (power and water), comprehensive logistics networks, and well-equipped industrial estates.

**6 Digital Transformation Readiness**  
Strong digital infrastructure: nationwide broadband, 5G, hyperscale data center, and digital/tech startup ecosystem.

**2 Highly Skilled Talent Pool**  
Strong STEM workforce pipeline (2022-2026: ~184,000 engineering graduates and ~110,000 science graduates)

**7 Commitment to Green & Sustainable Development**  
Increasing share of clean energy supply and new mechanisms: UGT (Utility Green Tariff) and Direct PPA.

**3 Robust Supply Chain**  
Deep and competitive supply chain—especially in automotive, electronics, and petrochemicals.

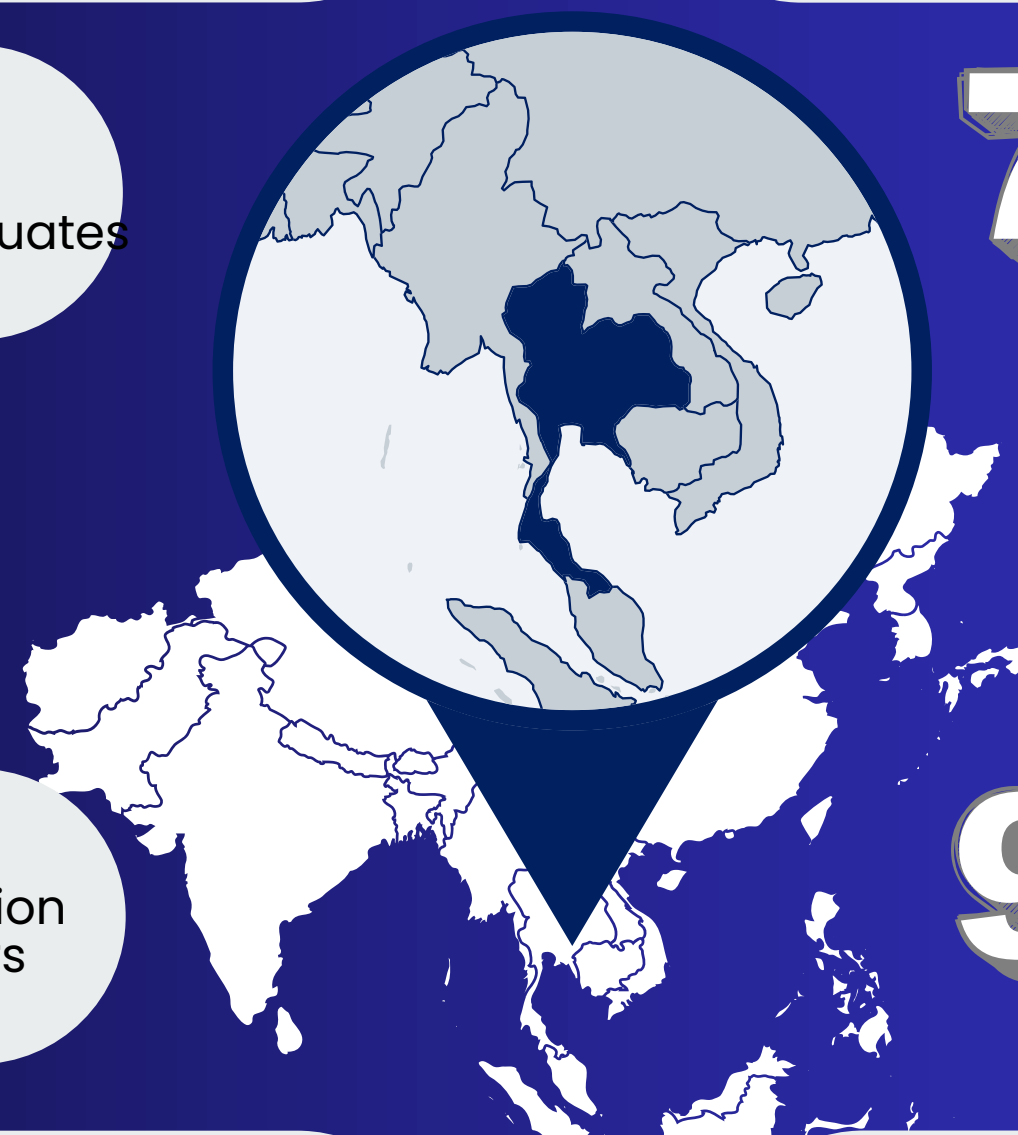

**8 Attractive Investment Incentives**  
Comprehensive tax and non-tax incentives, financial support, and facilitation measures.

**4 High-Potential Domestic Market**  
Access to a domestic market of 70 million people, and over 600 million consumers across ASEAN.

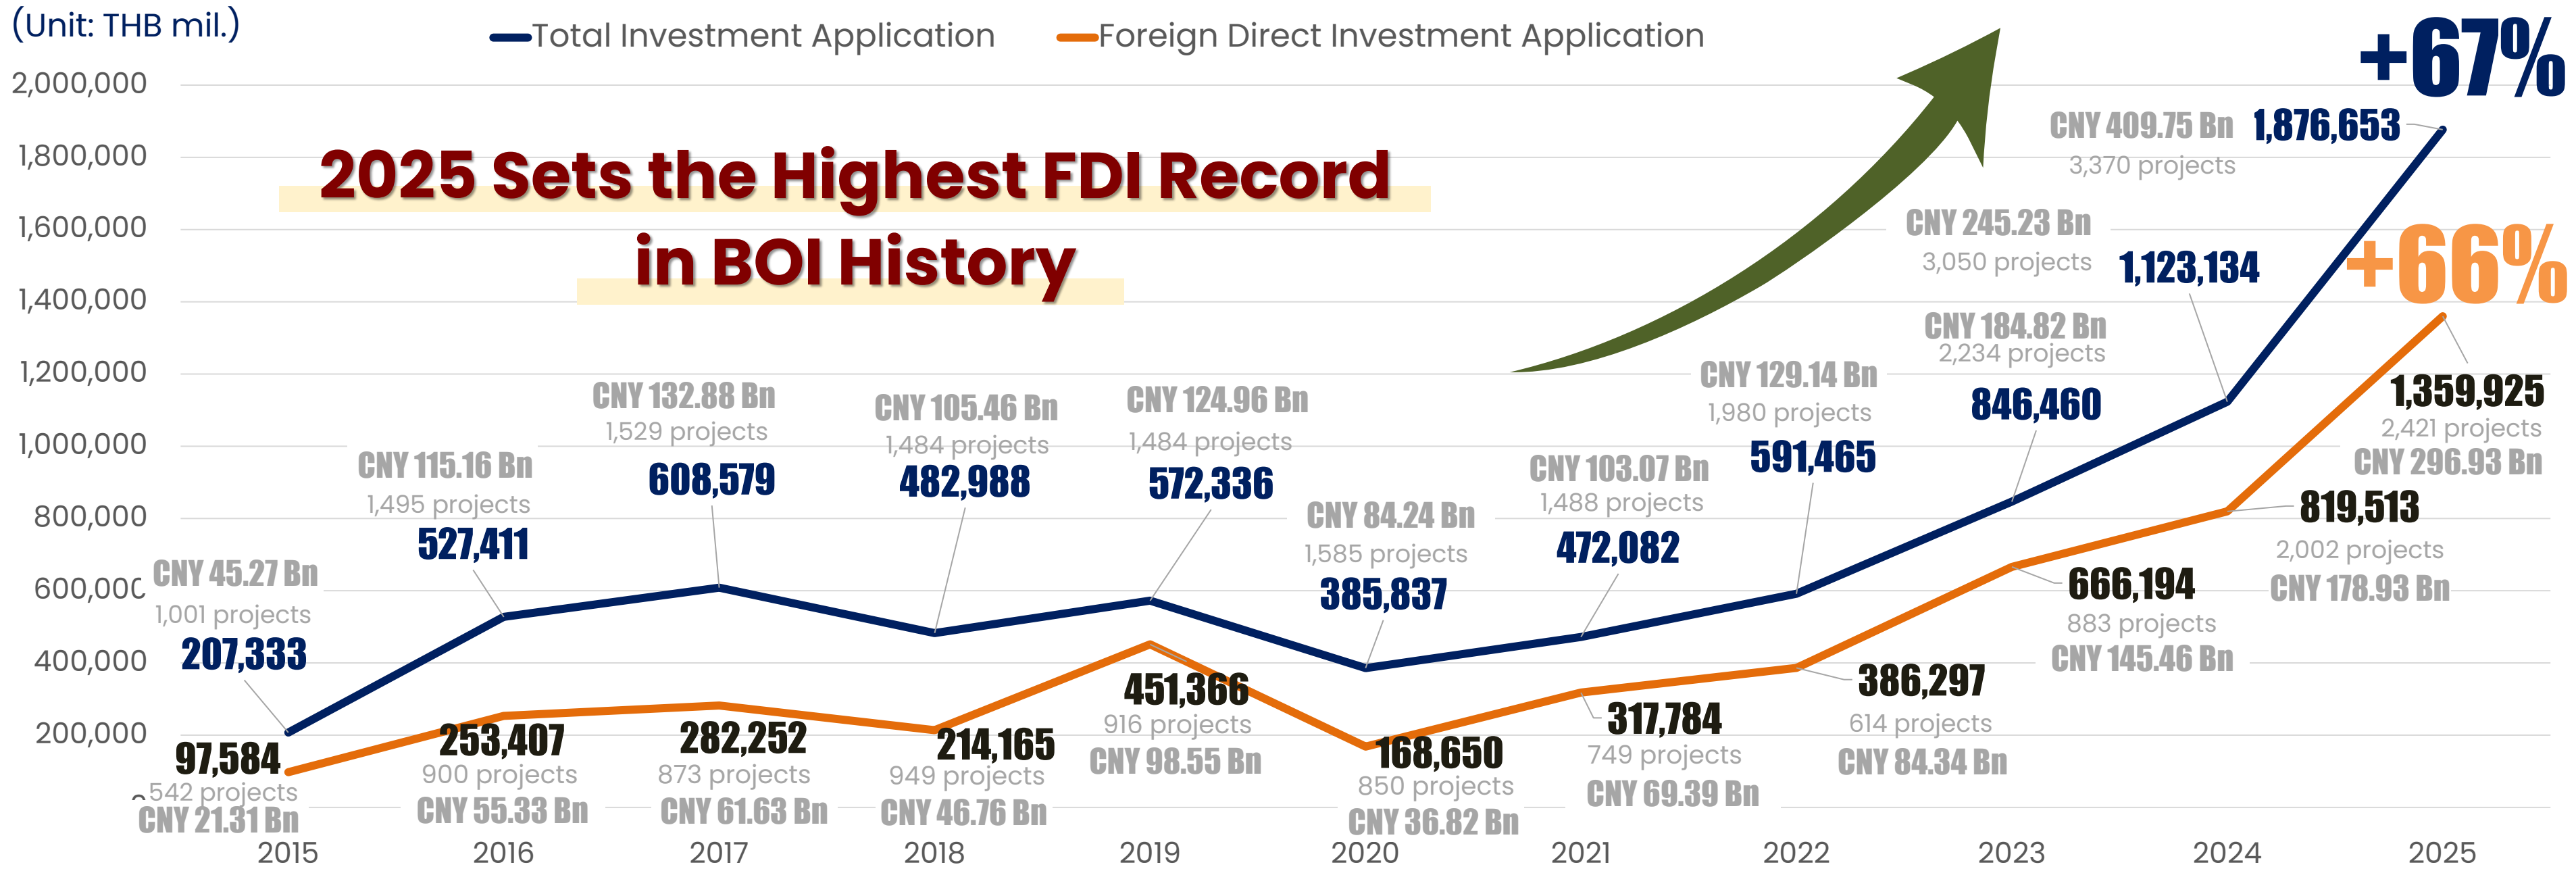

**9 Competitive Production Costs**  
Cost-efficient labor, utilities, and industrial logistics supporting competitive production.

**5 Gateway to Global Markets through FTAs**  
17 FTAs covering 24 countries/economies, enabling broad export access.

**10 High Quality of Life & Expat-friendly Environment**  
World-class healthcare (incl. +60 JCI-accredited hospitals), intl schools, modern living standards, and globally recognized tourism and cultural attractions.

# STRONG MOMENTUM IN INVESTMENT APPLICATIONS

## Top 5 Economies by Investment Value in Thailand in 2025

Rank	Economy	Investment Value (THB mil.)	Investment Value (CNY Bn)
1st	Singapore	547,316	CNY 119.5 Bn
2nd	Hong Kong	245,335	CNY 53.57 Bn

# STRATEGIC GROWTH INDUSTRIES

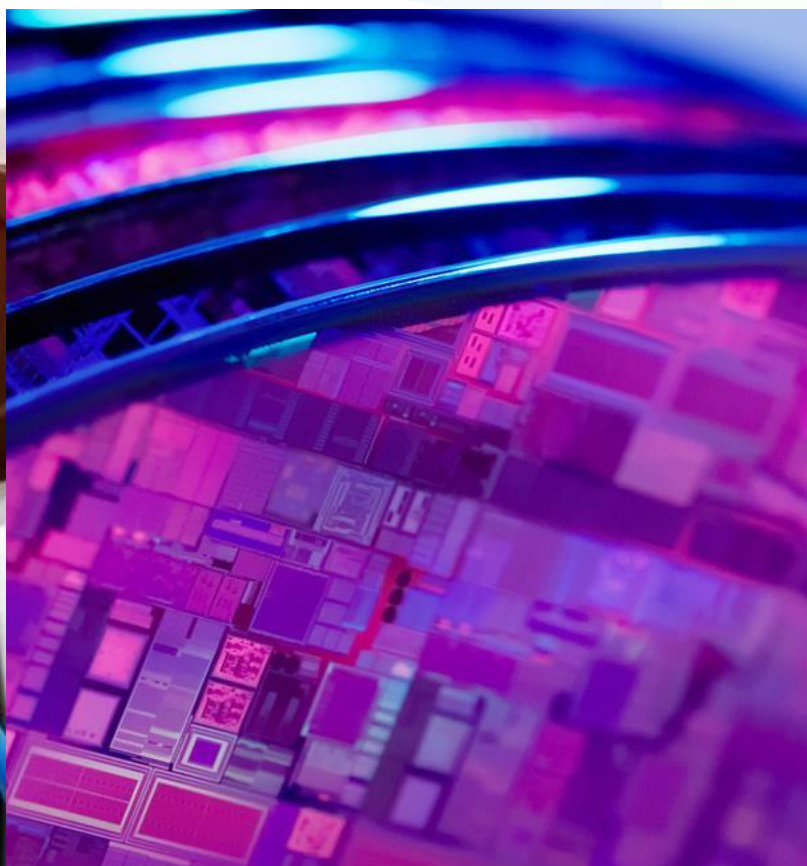

**BCG  
(BIO-CIRCULAR-  
GREEN)**

**EV &  
BATTERY &  
KEY PARTS**

**SEMICONDUCTOR  
AND ADVANCED  
ELECTRONICS**

**DIGITAL  
AND AI**

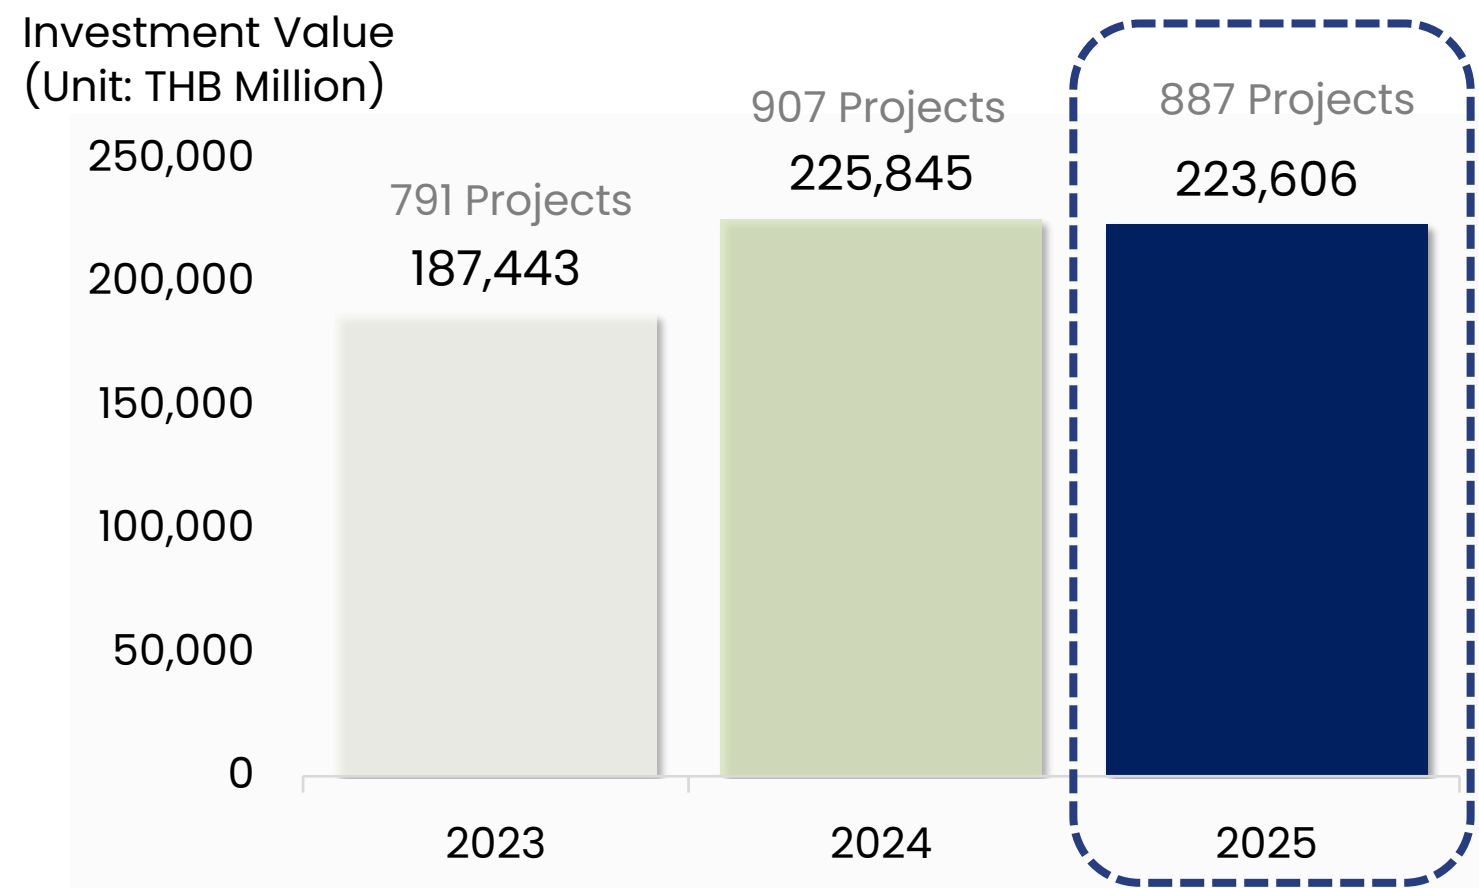

**INTERNATIONAL  
BUSINESS  
CENTER**

# BIO-CIRCULAR-GREEN: BCG

During 2023 – 2025, Thailand received THB 640 bil. in applications (2,585 projects)

## PROMOTED LEADING COMPANIES IN BIO-BASED

## HIGHLIGHTED INVESTMENT AREAS

**BIOPLASTIC RESINS**  
(e.g., PLA) from agricultural feedstocks

**ALTERNATIVE PROTEIN**  
plant-based & insect-based proteins with lower greenhouse gas emissions than livestock

**PREMIUM PET NUTRITION**  
Formulated with complete & balanced nutrition tailored to species- & age-specific needs

**BIOFUEL**  
(e.g., SAF) reduce carbon emissions in the aviation sector

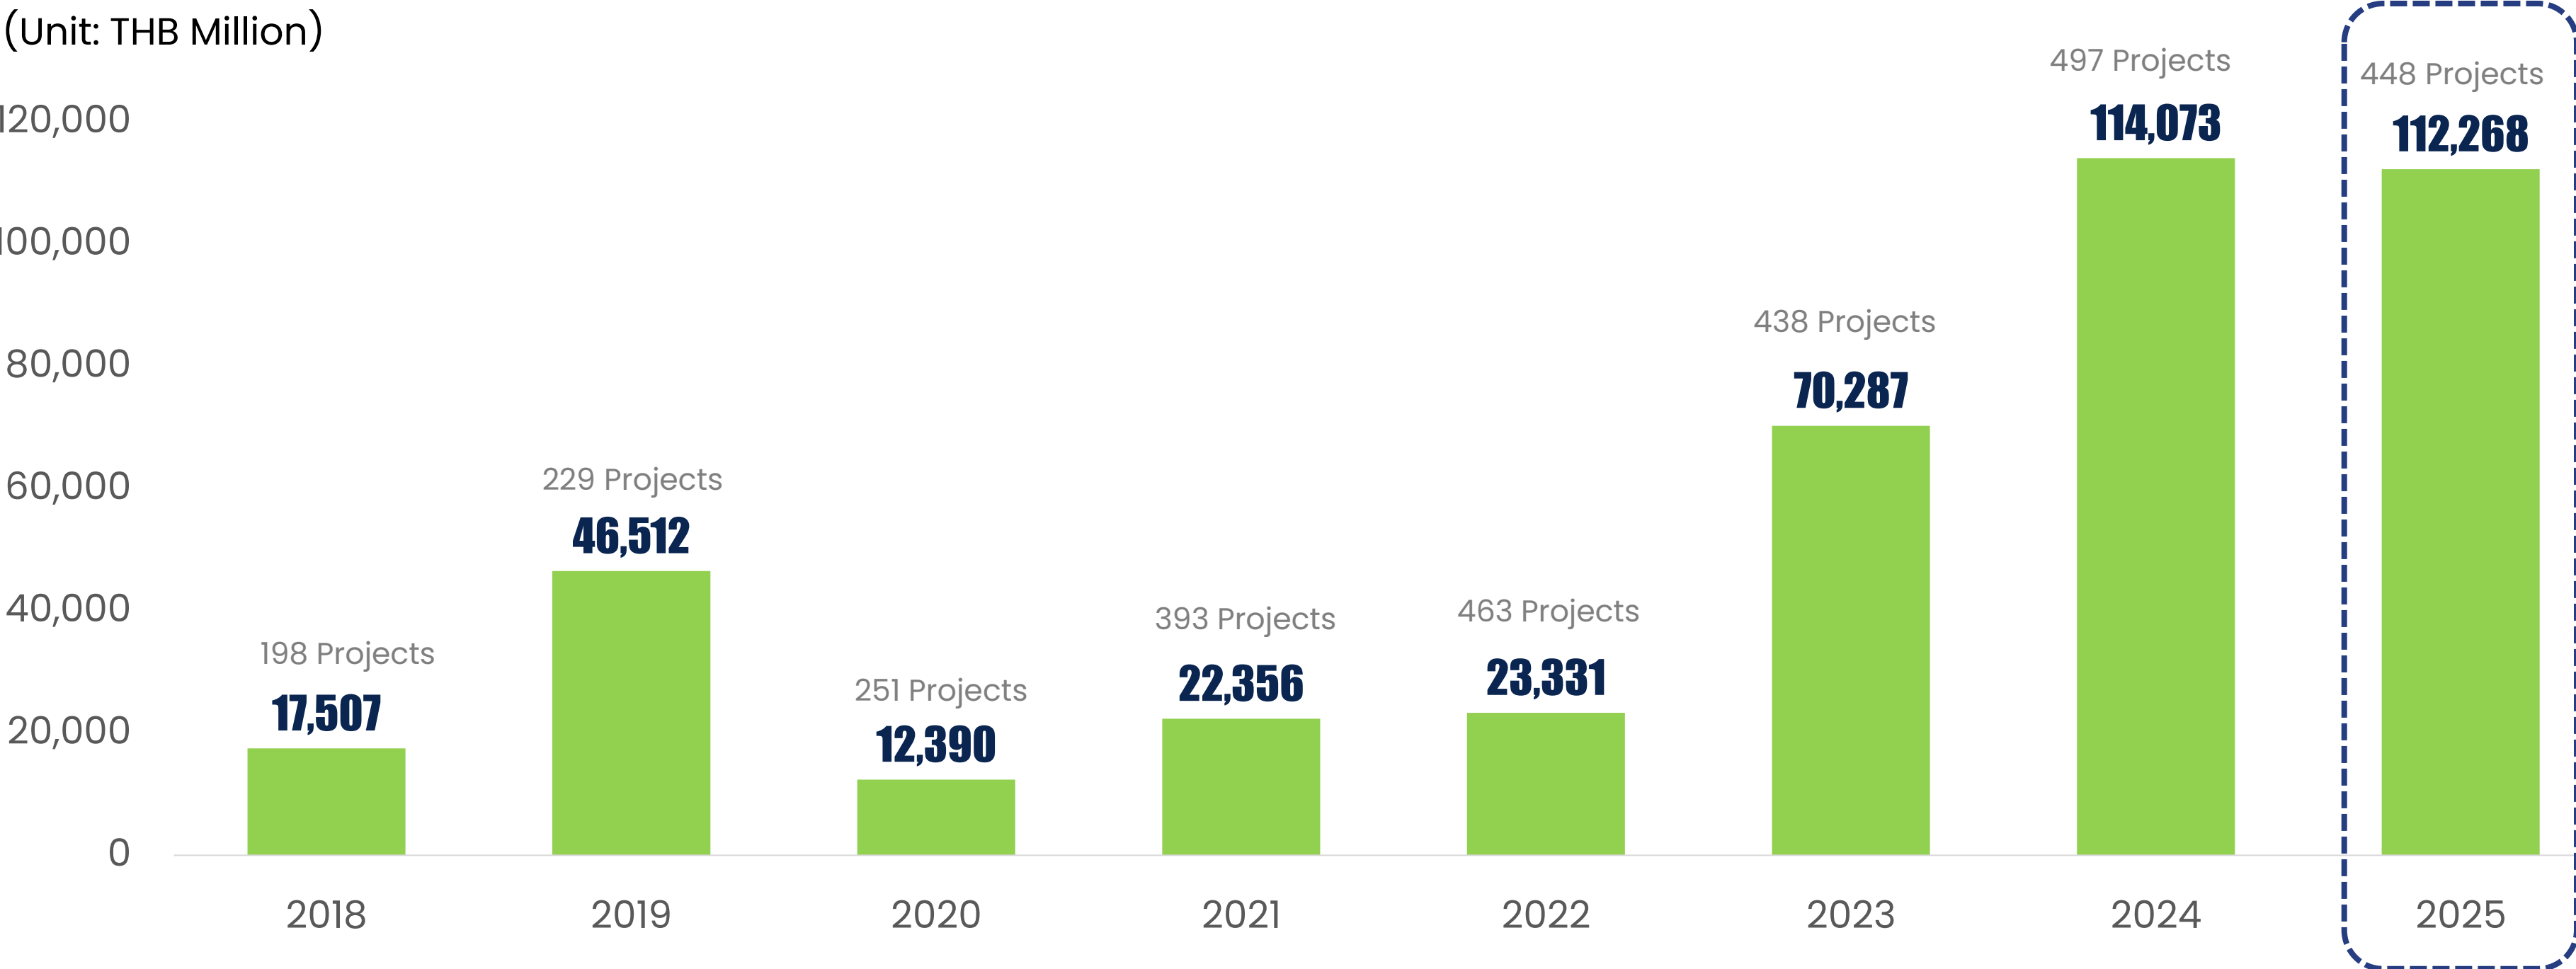

## PROMOTED LEADING COMPANIES IN NEXT-GENERATION AGRICULTURE

### NEXT-GENERATION AGRICULTURE

### FUTURE FOOD

## In the last three years (2023 – 2025), Thailand attracted 1,383 applications for clean-energy power generation projects, totaling THB 297 bil.

Investment Value  
(Unit: THB Million)

Note: In 2019, Thailand received a significant investment of THB 24 bil. in a power generation project using pitch (petroleum residue) as fuel.

Source: BOI

# Thailand's Clean Energy Transition

**PDP 2024–2037: 51% clean energy in total generation mix by 2037**

*currently accounts for 22%*

## UGT (UTILITY GREEN TARIFF)

**UGT** offers electricity bundled with renewable energy certificates (RECs) with 2 options.

### UGT (1): Unspecified source from existing generator bundled with RECs.

- UGT1 began operations in February 2025 under MEA and PEA, following the application cycle that opens each January.
- A total of 43 applications were submitted under the 2025 electricity bill, representing a volume of 433.11 GWh

**Status**

### UGT (2): Specified source from new or expanded generator bundled with RECs.

**Status**

- The UGT2 is expected to commence service in mid 2026

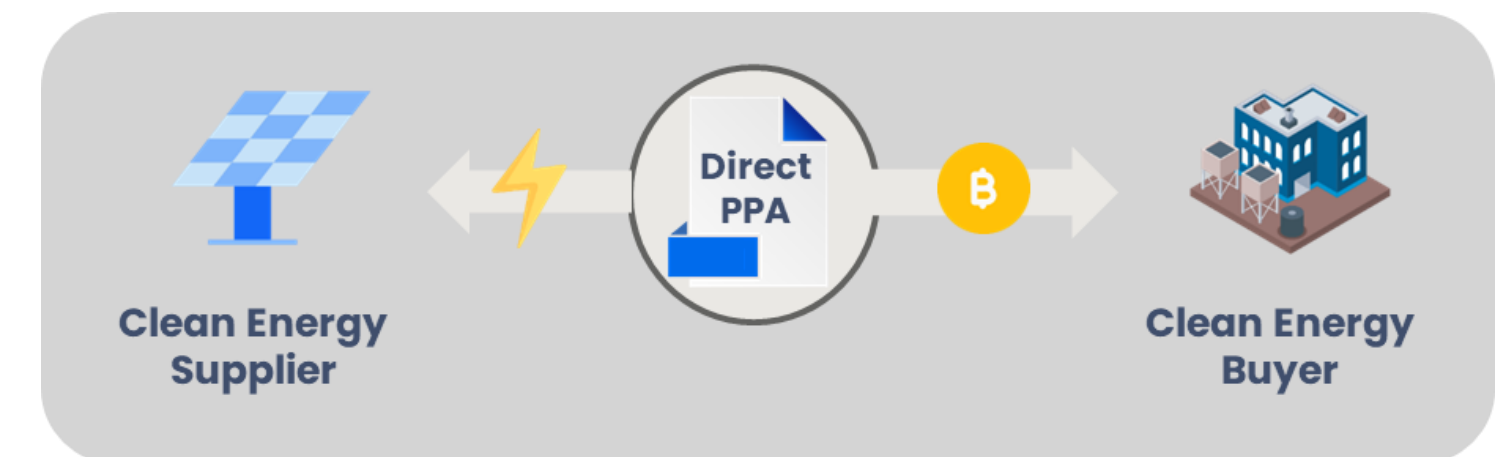

## DIRECT PPA (DIRECT POWER PURCHASE AGREEMENT)

Direct  
PPA

**Direct PPA** enables power users to procure renewable energy directly from power generators through a Third-Party Access (TPA) mechanism. The initial launch will be open to data center service providers with a combined capacity of 2,000 MW.

### PROGRESS:

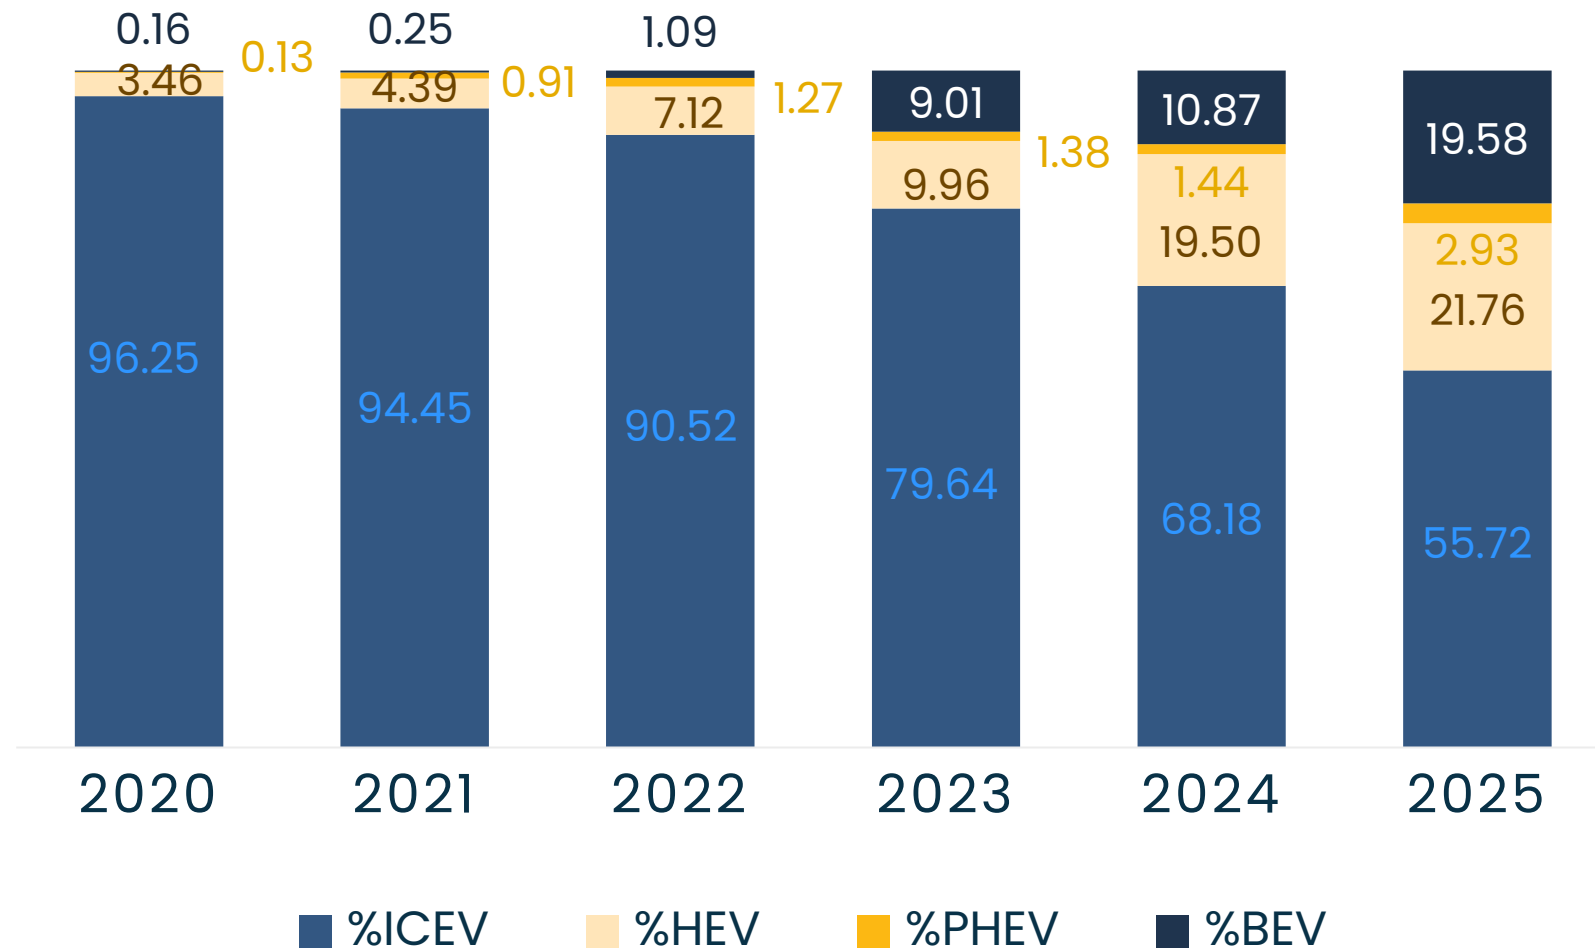

**Services are expected to begin by mid 2026**

# EV + BATTERY & KEY PARTS

## SHARES OF EV REGISTRATIONS IN THAILAND

EV share continues rising, driven by accelerating BEV adoption.

## APPROVED INVESTMENT PROJECTS : KEV ECOSYSTEM

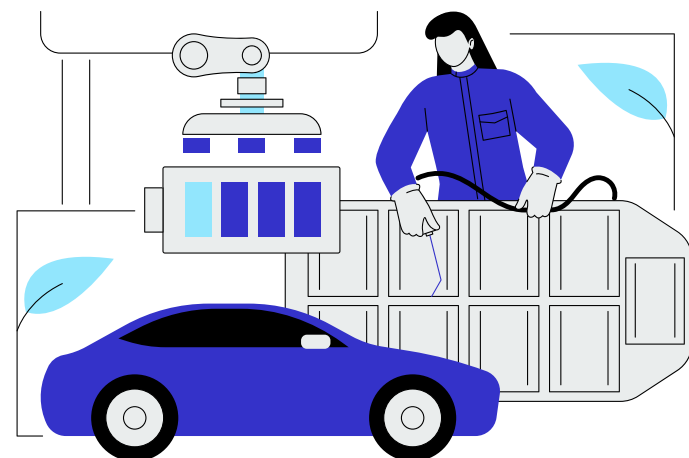

### MAJOR MANUFACTURERS ALREADY IN THAILAND

2017 – 2025

Battery	Essential e-Parts	Charging Station	Battery Swapping Station
55 Projects THB 80,016 mil.	45 Projects THB 10,002 mil.	30 Projects THB 4,931 mil.	5 Projects THB 1,279 mil.

## PROMOTING EV BATTERY INVESTMENT

*"Batteries are the heart of EVs. Cell production is the most critical & technology-intensive stage, requiring significant investment."*

- Accelerating EV battery manufacturing in Thailand for both local supply and export, to strengthen the country's position in the global EV ecosystem.
- Support for **EV battery manufacturing at all levels**: Cell, Module, and Battery Pack
- Promotion of **battery repair and reuse**
- Expanded incentives for **key components**, including Cathode, Anode, Electrolyte, Separator

# Thailand EV BOARD: Policy Refresh to Strengthen Thailand's EV Ambitions

EV3.0 SCHEME				EV3.5 SCHEME			
2022	2023	2024	2025	2024	2025	2026	2027
CBU IMPORT		LOCALLY PRODUCE EV REQUIREMENT import-to-production ratio		CBU IMPORT		LOCALLY PRODUCE EV REQUIREMENT import-to-production ratio	
		1 : 1	1 : 1.5			1 : 2	1 : 3

## CONTINUED EV SUPPORT MEASURE

**Promote EV Export:**

- Locally produced EV that export will be counted as 1.5 units under the condition of local production offset ratio.
- Export period extended to 30 June 2026 for EV locally produced in 2025.

**Relaxed Local Production Offset Deadline:**  EV registration period extended to 31 January 2028.

**Promote EV Export:**

- Locally produced EV that export will be counted as 1.5 units under the condition of local production offset ratio.
- The export period for locally produced electric vehicles has been extended by 6 months for each cycle year, covering 2026 and 2027.

# Strengthening Thailand-China Cooperation to Advance the Electric Vehicle Industry

## MOU SIGNING CEREMONY STRENGTHENING THAILAND-CHINA EV ECOSYSTEM

THAILAND  
BOARD OF  
INVESTMENT

China EV100  
中国电动汽车百人会

DECEMBER 19, 2025

AT THE OFFICE OF THE BOARD OF INVESTMENT, THAILAND

### STRATEGIC PARTNERSHIP:

Leverage the industrial resource advantages of both parties—including **technology, R&D, expertise, supply chains, and networks**—to promote the development of a bilateral **new energy vehicle ecosystem**.

**Facilitate two-way investment** between Chinese and Thai companies in **the new energy vehicle supply chain**, fostering bilateral industrial cooperation and sustainable growth.

Co-host **Thailand-China EV Forum** on the BOI yearly signature event: SUBCON Thailand.

# SEMICONDUCTORS & ADVANCED ELECTRONICS

Over the past 3 years (2023 - 2025), Semiconductor & Advanced Electronics saw 753 applications, totaling THB 800 bil. in investment

# KEY PLAYERS IN SEMICONDUCTOR MACHINERY AND EQUIPMENT INDUSTRY IN THAILAND

**Products:** Plasma Generator

**Products:** Machining parts; covers for layer deposition/spin wet clean m/c, coils for chemical vapor deposition m/c, chambers for electrochemical deposition m/c

**Products:** Top plate, Ring and chamber for plasma-enhanced chemical vapor deposition (PECVD)

**Products:** Cabinet System (CBS) and Distributed Control System (DBS)

**Products:** High power industrial laser for laser cut diving machine

**Products:** Valve box, Chiller

**Products:** Ultra high purity valve

**Products:** Parts for wafer inspection equipment, advanced semi back-end test module (Magnus) equipment, Chemical-mechanical planarization (CMP), metal deposition product (MDP) equipment

**Products:** Wafer load port

**Products:** Physical Vapor Deposition (PVD) Coating for automotive and aerospace products

**Products:** Semiconductor equipment repair service for its own brand covering IC tester, MEMS tester, sensors tester, electronic board tester

**Products:** Wire bonder and bump bonder

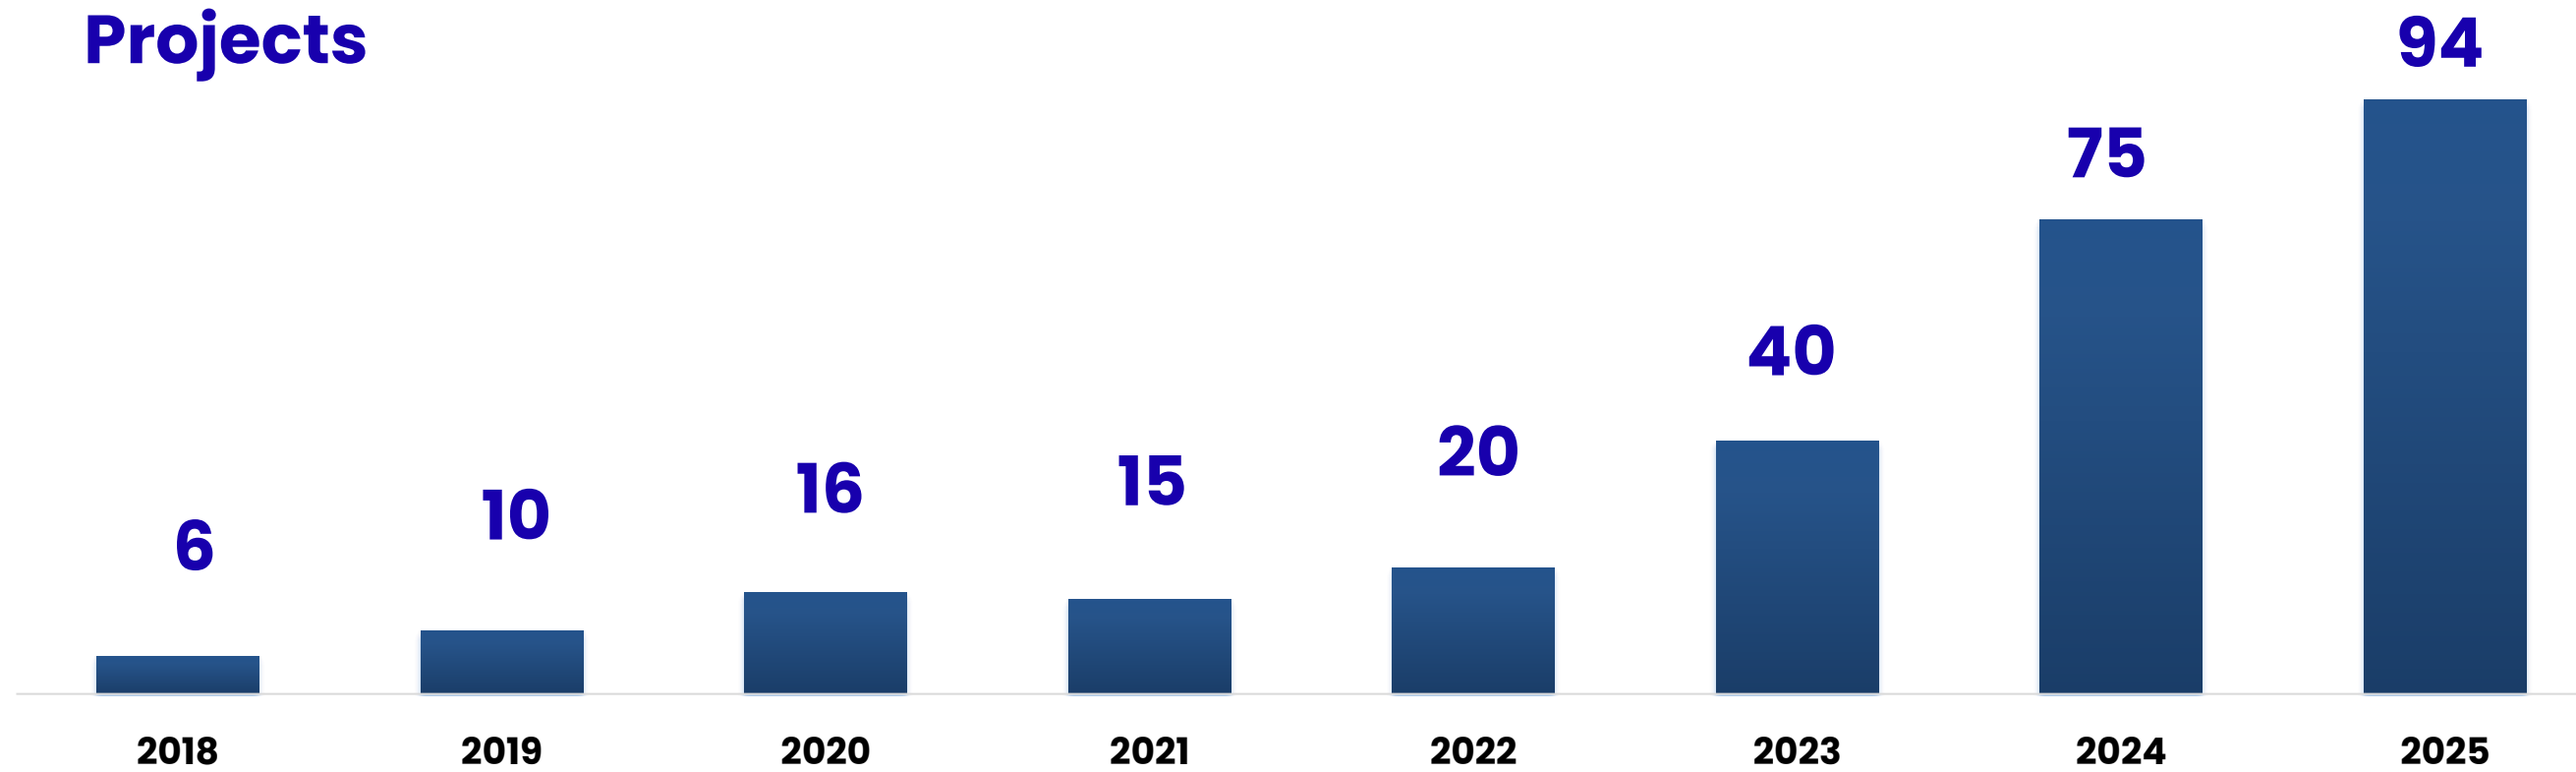

**Products:** Shield, Chamber, High purity valve, sub assembly module

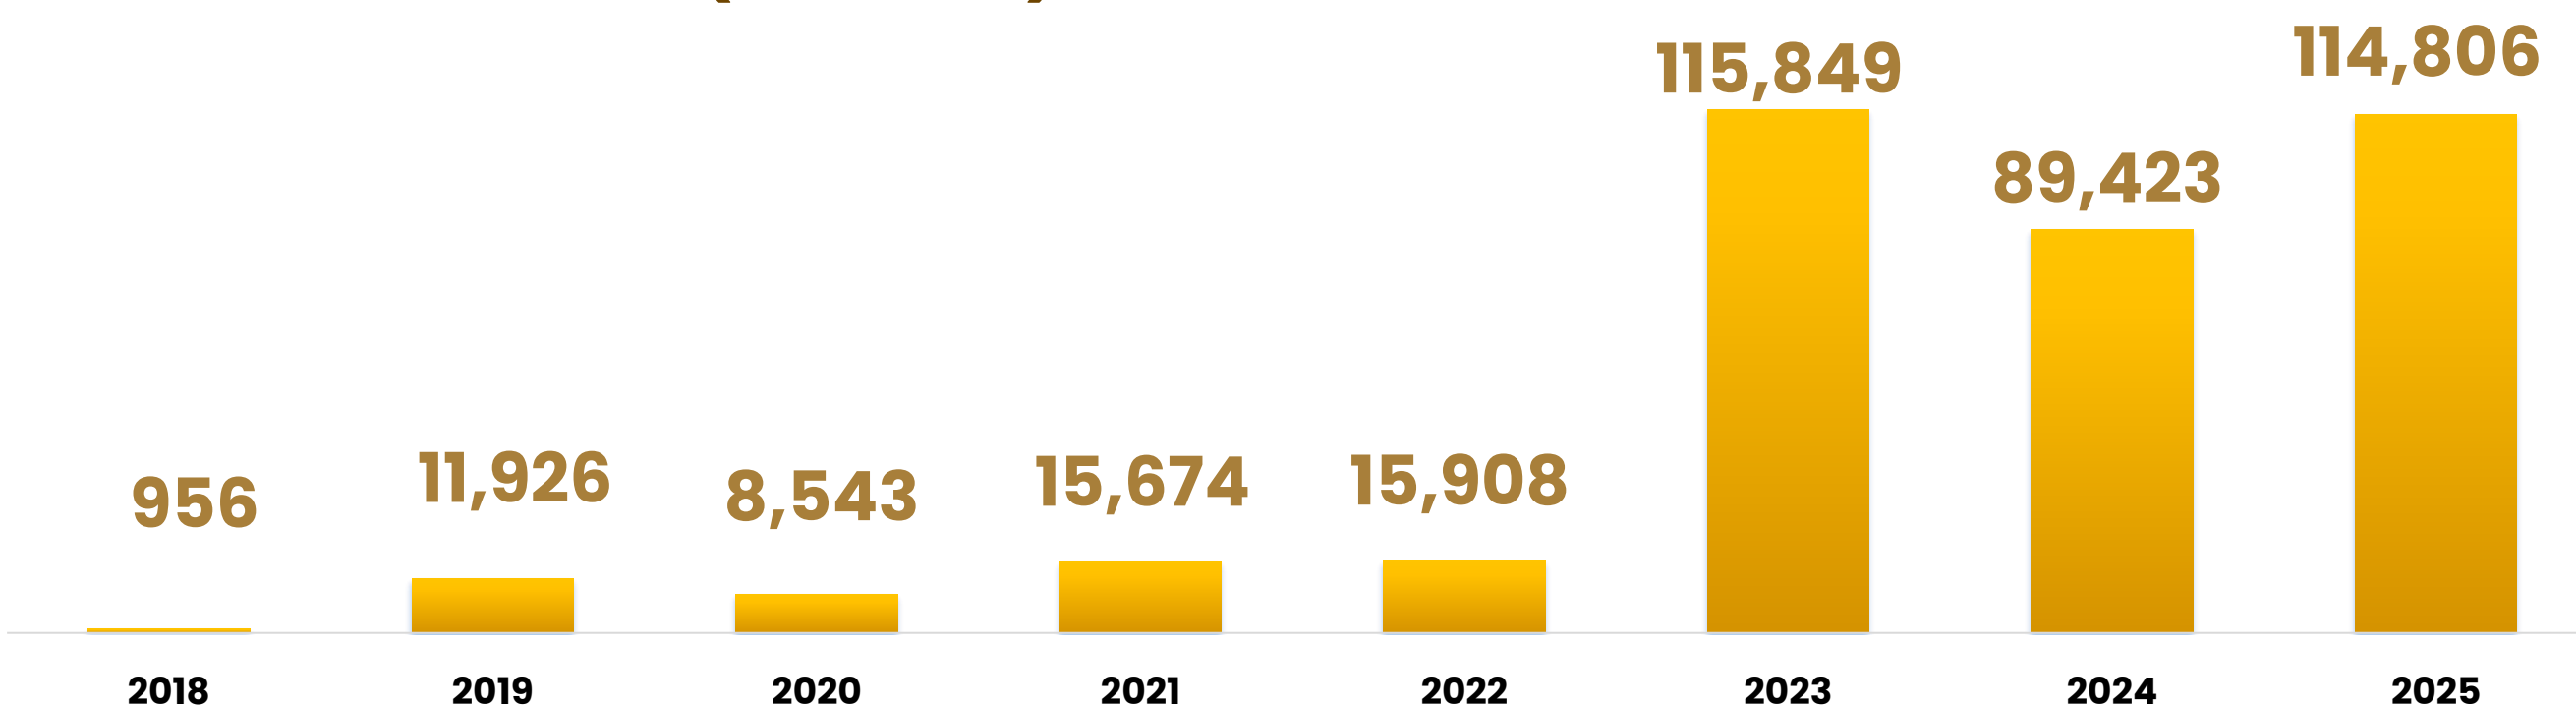

# PRINTED CIRCUIT BOARD (PCB)

During 2023 – 2025, the PCB industry saw 222 applications, over THB 320 bil.

# National Semiconductor and Advanced Electronics Strategy

**Strategic vision and goals by 2050** – expected to be implemented in 2026 –

2050  
Vision

“To position Thailand as a **leading regional hub** for **advanced technology**, producing **Made-in-Thailand chips** through a **fully integrated ecosystem** and **local champions**.”

GOALS

**Reinforce and scale Thailand's conventional back-end strengths by 2030**

Building on proven competitive advantages as foundation, doubling down on power and sensor conventional back-end

**Secure anchor FDIs in advanced high-value segments by 2040**

Build advanced capabilities, especially in legacy-node / specialty front-end, IC design, and advanced back-end

**Develop local champions in 4 key segments by 2050**

Leverage MNCs' expertise to drive knowledge and technology transfer

**Establish complete value chain presence by 2050**

Successfully move up the value chain through a balanced mix of local champions and MNCs

**From 2023 to 2025, digital & AI applications totaled THB 1 Trillion (431 projects)**

**Software and digital services**

**Hyperscale Data Center & Cloud Service**

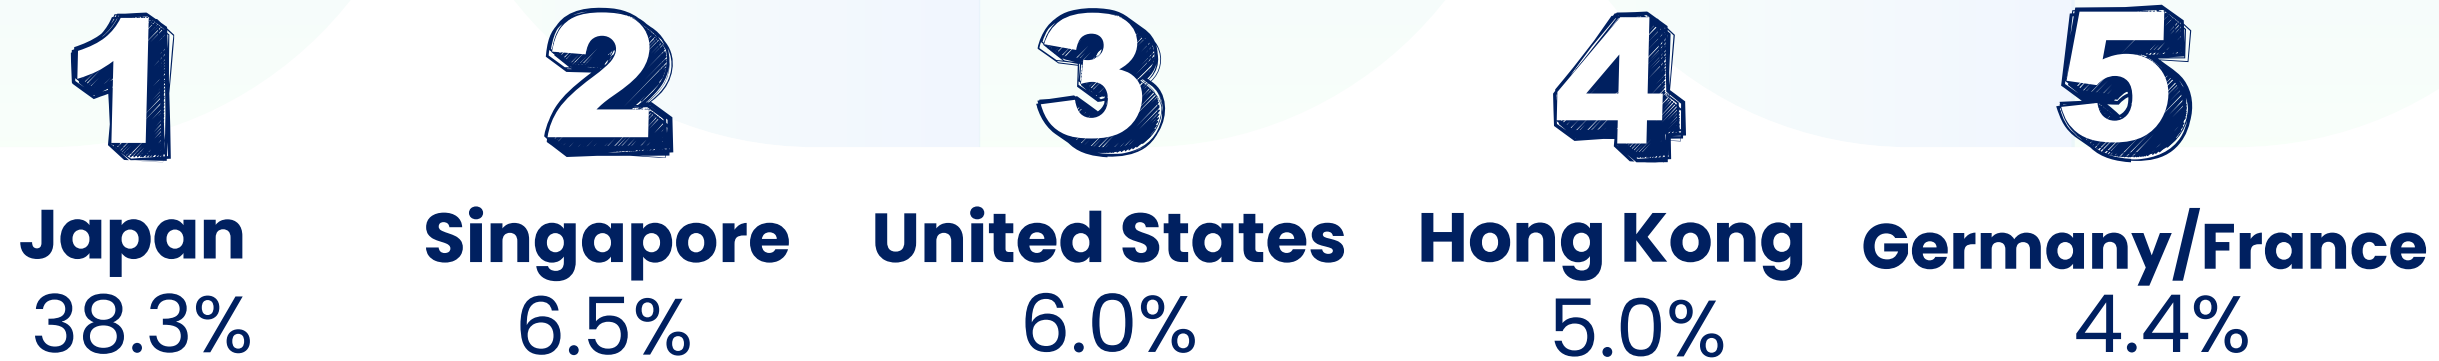

**AI Technology**

- **Develop digital skills for Thai people**, such as AI, machine learning, deep learning, cloud computing, and blockchain.
- **Encourage private sector to utilize digital technologies** to improve efficiency, enabling them to enhance their competitiveness.
- **Support potential startups** to develop various technologies and innovations, such as FinTech, AgriTech, HealthTech, EdTech, and ClimateTech

# INTERNATIONAL BUSINESS CENTER

Between 2015-2025, International Business Center totaled 496 applications

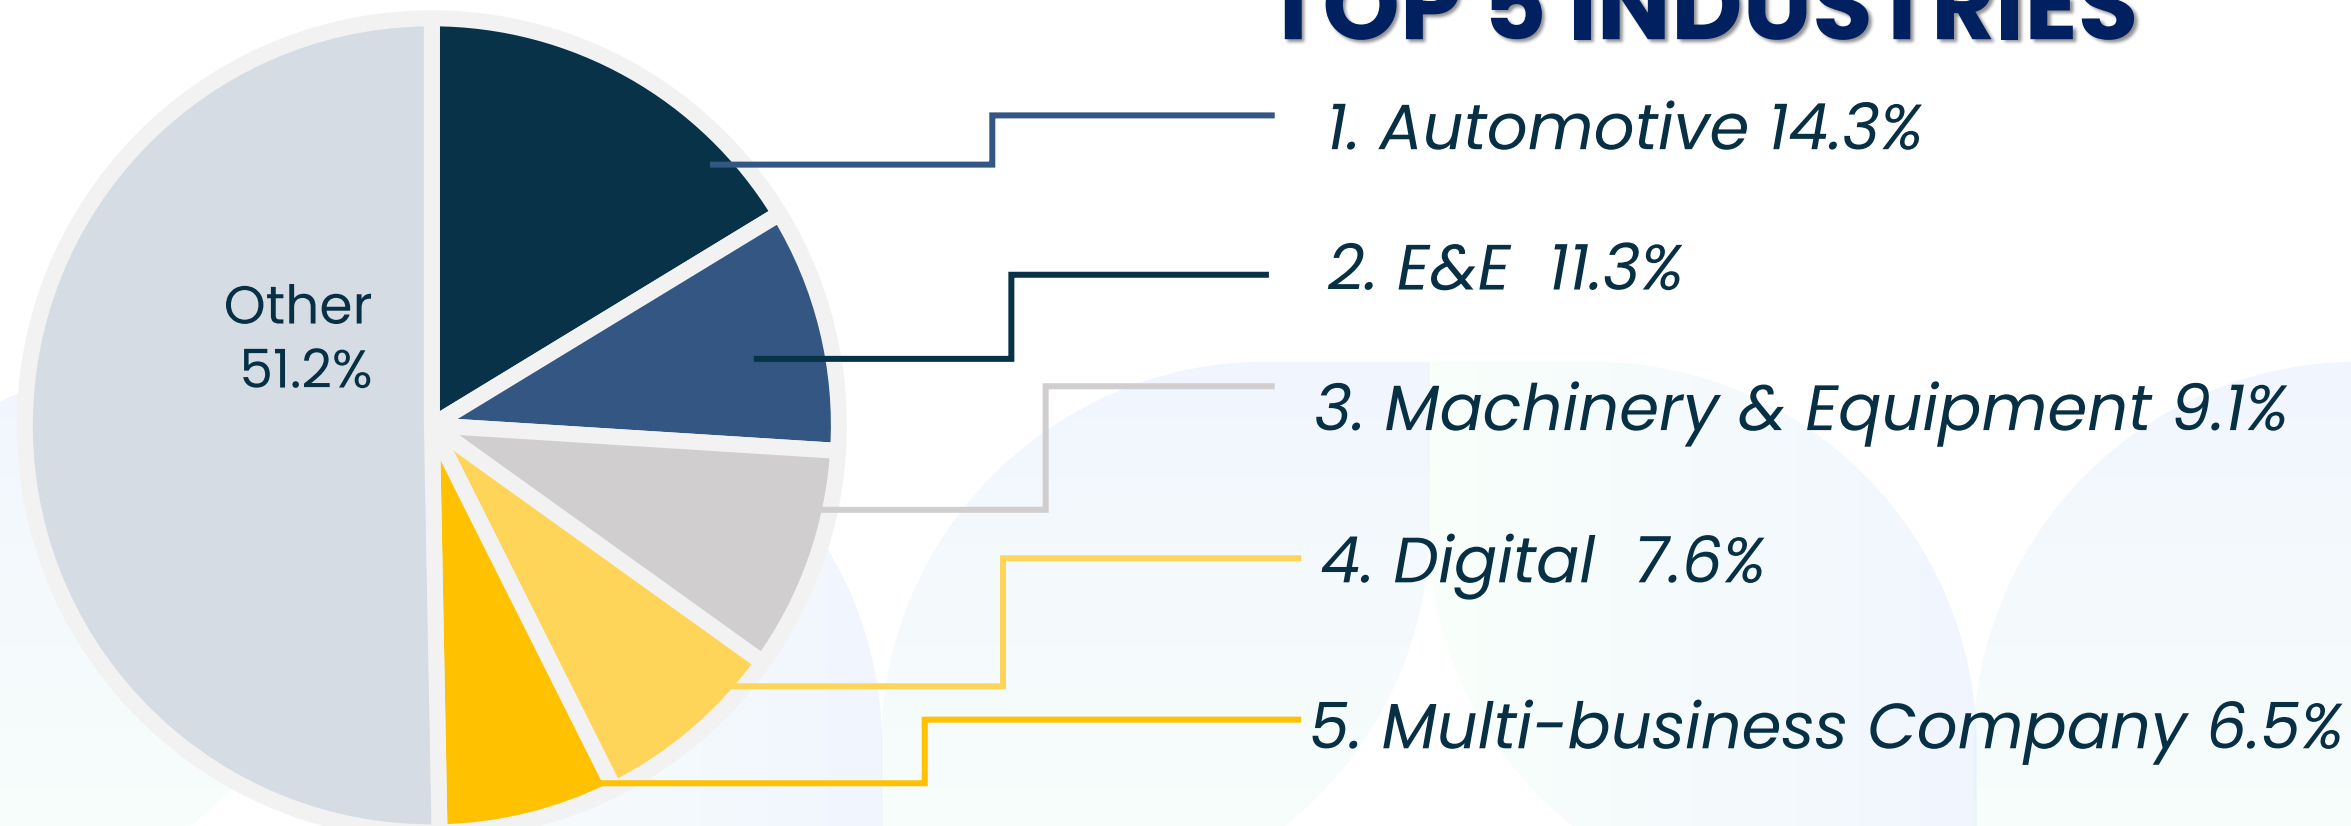

## TOP 5 ECONOMIES

## Sample approved Projects

# LONG-TERM RESIDENT VISA

## LTR VISA

### FOR LONG-TERM RESIDENTS

Targeted industries for the **HIGH-SKILLED PROFESSIONAL\*** category are as follows :

#### Existing Targeted Industries

- Automotive Industry
- Electronics Industry
- Affluent Tourism Industry
- Agricultural, Food and Biotechnology Industry
- Transportation and Logistics Industry
- Automation and Robotics Industry
- Aviation, Aerospace and Space Industry
- Biofuels and Biochemicals Industry
- Petrochemical and Chemical Industry
- Digital Industry
- Medical Industry
- National Defense Industry
- Circular Economy
- International Business Center (IBC)

- **Highly-skilled professionals with specialized skills** new
  - e.g. Digital, AI Finance, Marketing Advisor, **University professors, Researchers and Educators in vocational sectors**

#### For more information:

- **LTR Website:** <https://ltr.boi.go.th/>
- **Contact:** ltr@boi.go.th

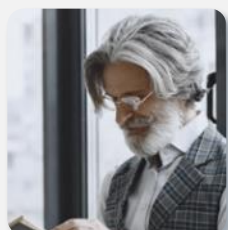

new

#### 4 TYPES OF LTR VISA

##### WEALTHY GLOBAL CITIZENS

Wealthy individuals holding at least **USD 1 million** in assets

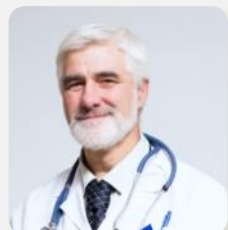

##### WEALTHY PENSIONERS

Retirees **aged over 50 years** who have an annual pension or stable income

##### WORK-FROM-THAILAND PROFESSIONALS

**Remote workers** working for well-established overseas companies

##### HIGHLY SKILLED PROFESSIONALS

**Professionals in targeted industries working for**

- business entities or higher education institutes
- research centers or specialized training institutions
- Thai government agencies

##### Dependents

Spouse, children under 20 years old, **parents and legal dependents** of LTR visa holders

#### LTR VISA PRIVILEGES

10-year visa & Permission to work in Thailand

Fast Track Service at International Airport

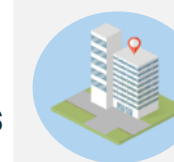

90-day report extended to 1-year report and exemption of re-entry permit

Permission to Work in Thailand (Digital Work Permit)

17% personal income tax rate for Highly-Skilled professionals & tax exemption from oversea income

Facilitation Services at One Stop Service Center for Visa & Work Permit

Exemption from 4 Thais : 1 foreigner employment requirement ratio

**Remarks:** The LTR visa will be granted for 5 years at a time and can be renewed every 5 years if qualifications are still met.
