Press Release

No.97 /2015 (O.43)

9 July 2015

The BOI Extends the Range of Its One Stop Service to Cover IHQ ITC and SEZ with the Aim to Improve Investment Climate

Deputy Prime Minister M.R. Pridiyathorn Devakula presided over the opening ceremony for the expansion of the One Start One Stop Investment Center (OSOS), which brings together additional investment-related agencies from both the government and the private sector to speed up business operation procedures.

The center will extend its range of service to cover information and consultation services for investors who are interested in investing in International Headquarters (IHQ), International Trading Centers (ITC), and in the 10 Special Economic Zones (SEZs) within 10 provinces including Tak, Kanchanaburi, Chiang Rai, Nong khai, Mukdaharn, Nakorn Phanom, Trat, Sa Kaew, Songkhla, and Narathiwat.

“The government is confident that this One Stop Service will improve the investment climate as it will enable the private sector to operate its businesses with convenience and speed, and this will enhance the overall image of the country,” said the Deputy Prime Minister.

The BOI’s Secretary General Hirunya Suchinai added that the OSS center, the extended part of OSOS, brings together 38 agencies from 14 government ministries and state-owned enterprises and 9 agencies from the private sector to provide consultation and information services related to doing business in Thailand. It covers the procedural matters of applying for various licenses such as investment promotion, factory operation licenses, foreign business licenses, etc. The OSS also acts as a One Stop Service

center that provides information on IHQ ITC and Special Economic Zones while also coordinating with related agencies and other One Stop Service centers located in those 10 Special Economic Zones (SEZs).

Agencies represented at OSOS are as follows:
