

Ministry of Investment

The Investor's Trusted Advisor

An overview of the Investment Services

THE ROLE OF MINISTRY OF INVESTMENT

The ongoing transformation of Saudi Arabia under Vision 2030 is unlocking new opportunities in the Kingdom at an unprecedented pace. The Ministry of Investment for Saudi Arabia (MISA) is facilitating access to these opportunities by developing a reliable, robust, business-friendly ecosystem, working across government to ensure investors and businesses are supported through their investment cycle.

The National Investment Strategy

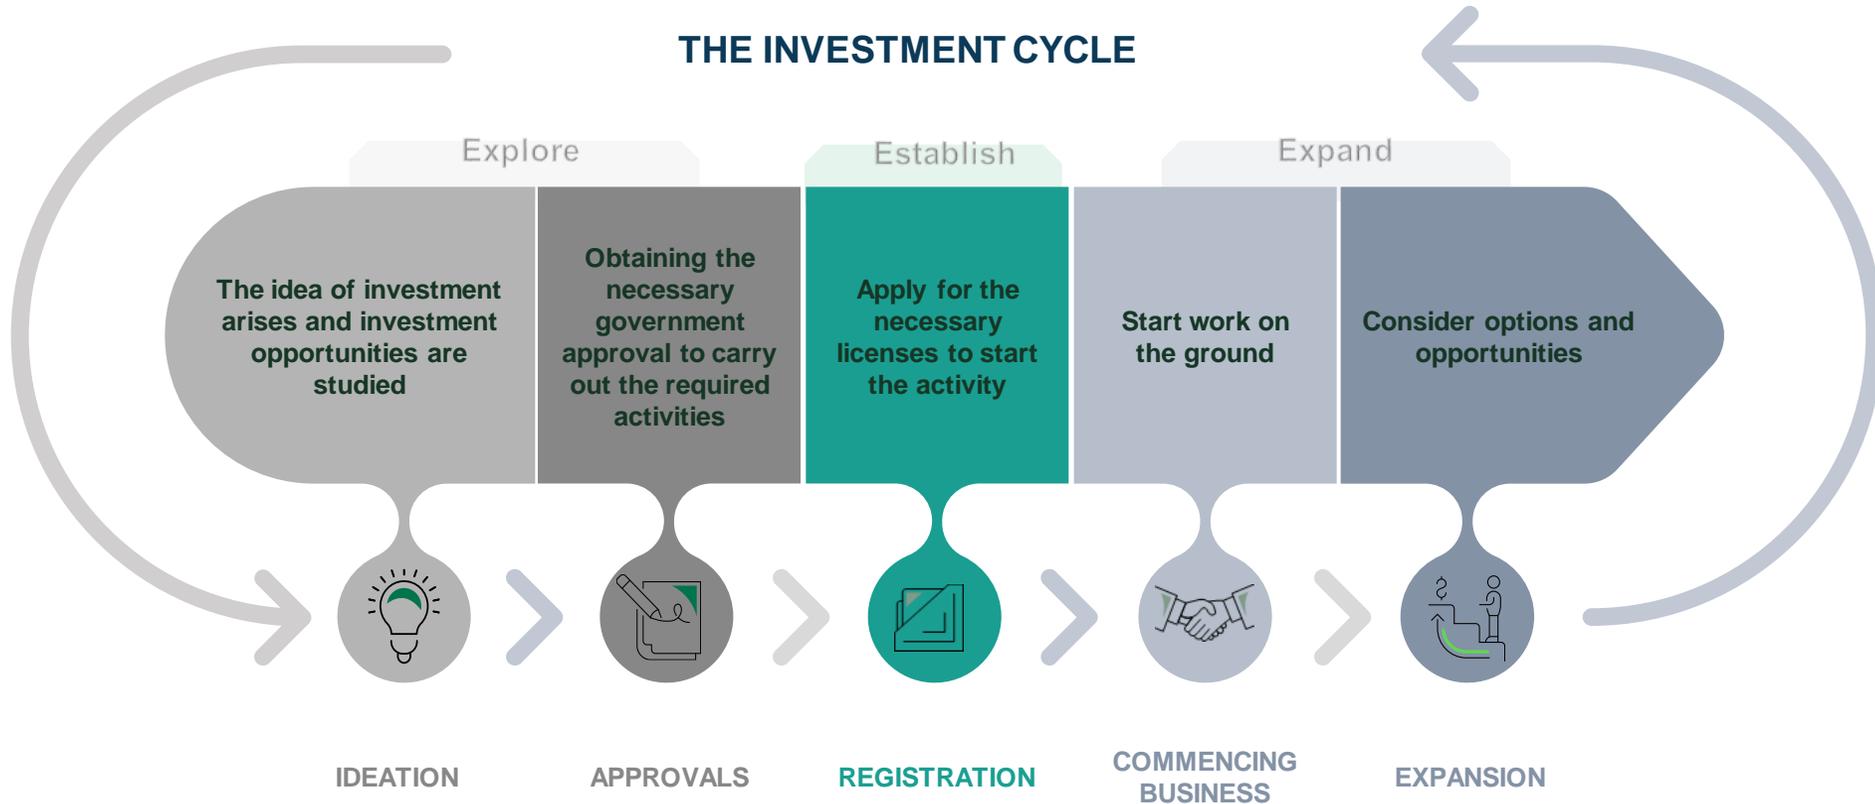

Four pillared Roadmap to fulfill the role of MISA

Building on the Kingdom's existing strengths, the overall objective of the NIS is to increase the quality and magnitude of investment in the Kingdom, which will help drive economic development in line with Vision 2030 and across with a stronger domestic and international private sector role in priority sectors

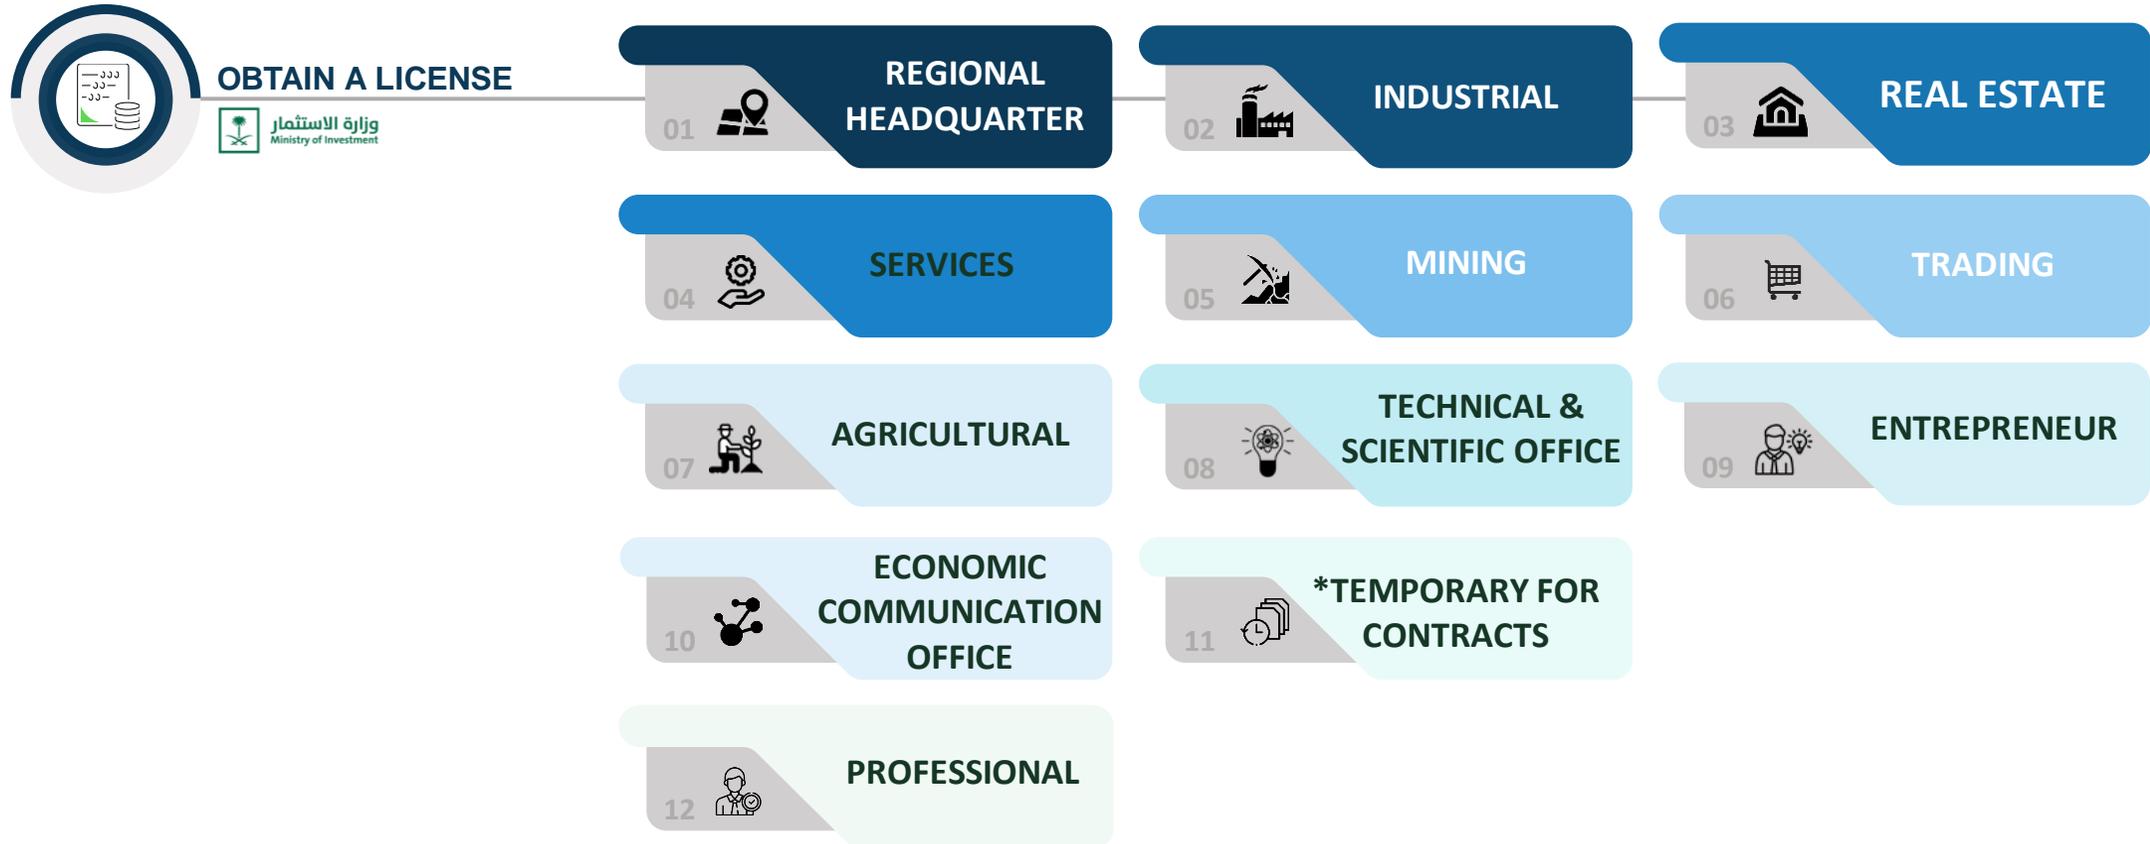

NIS Targeted Initiatives

With a **Vision** to place Saudi Arabia among the top performing markets for investments and a **Mission** to promote the Kingdom as a world-class investment destination, MISA engages and support investors throughout their investment cycle in Saudi Arabia.

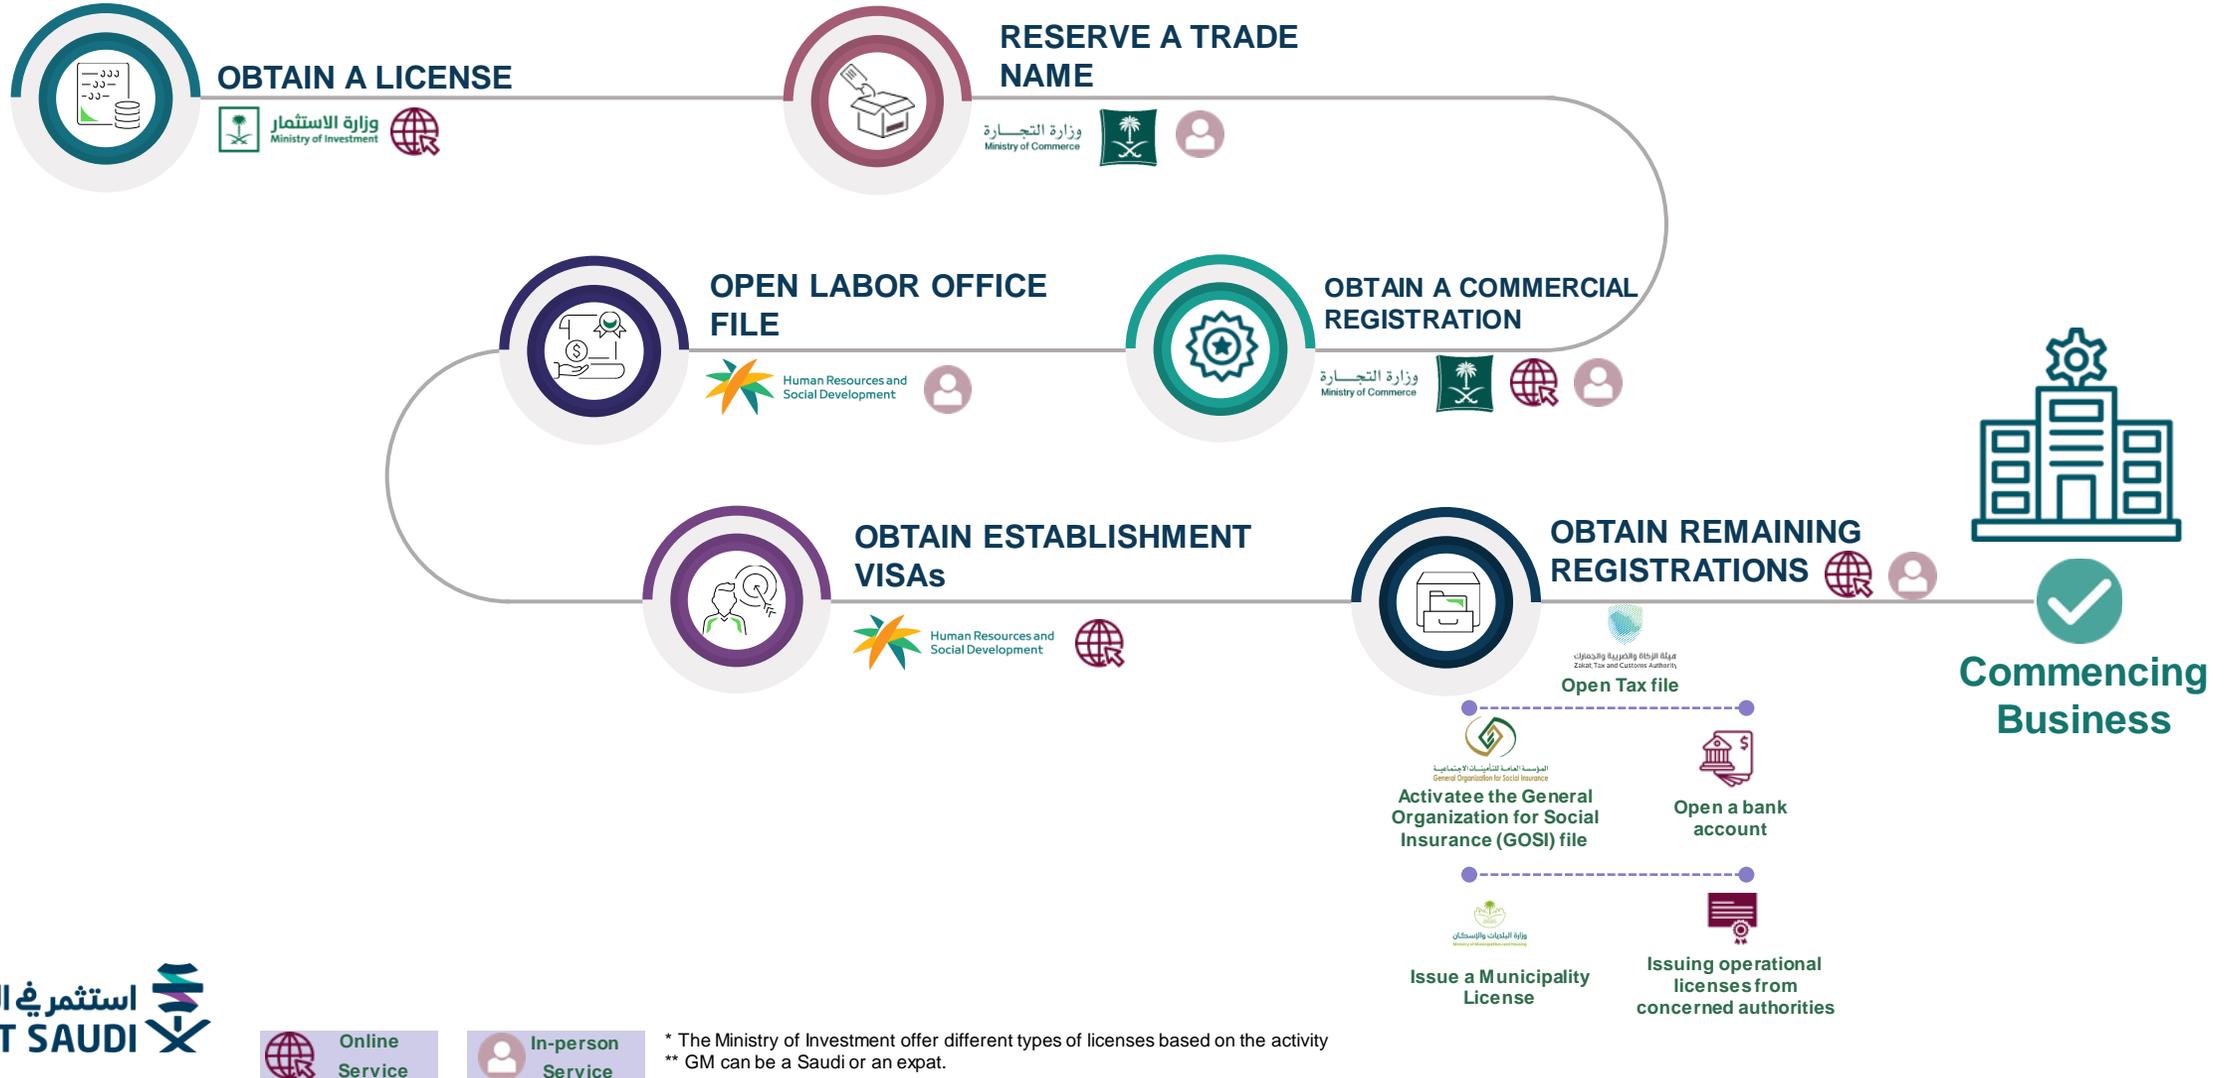

Customized curated support is initiated by identifying the suitable type of license based on the specific activities

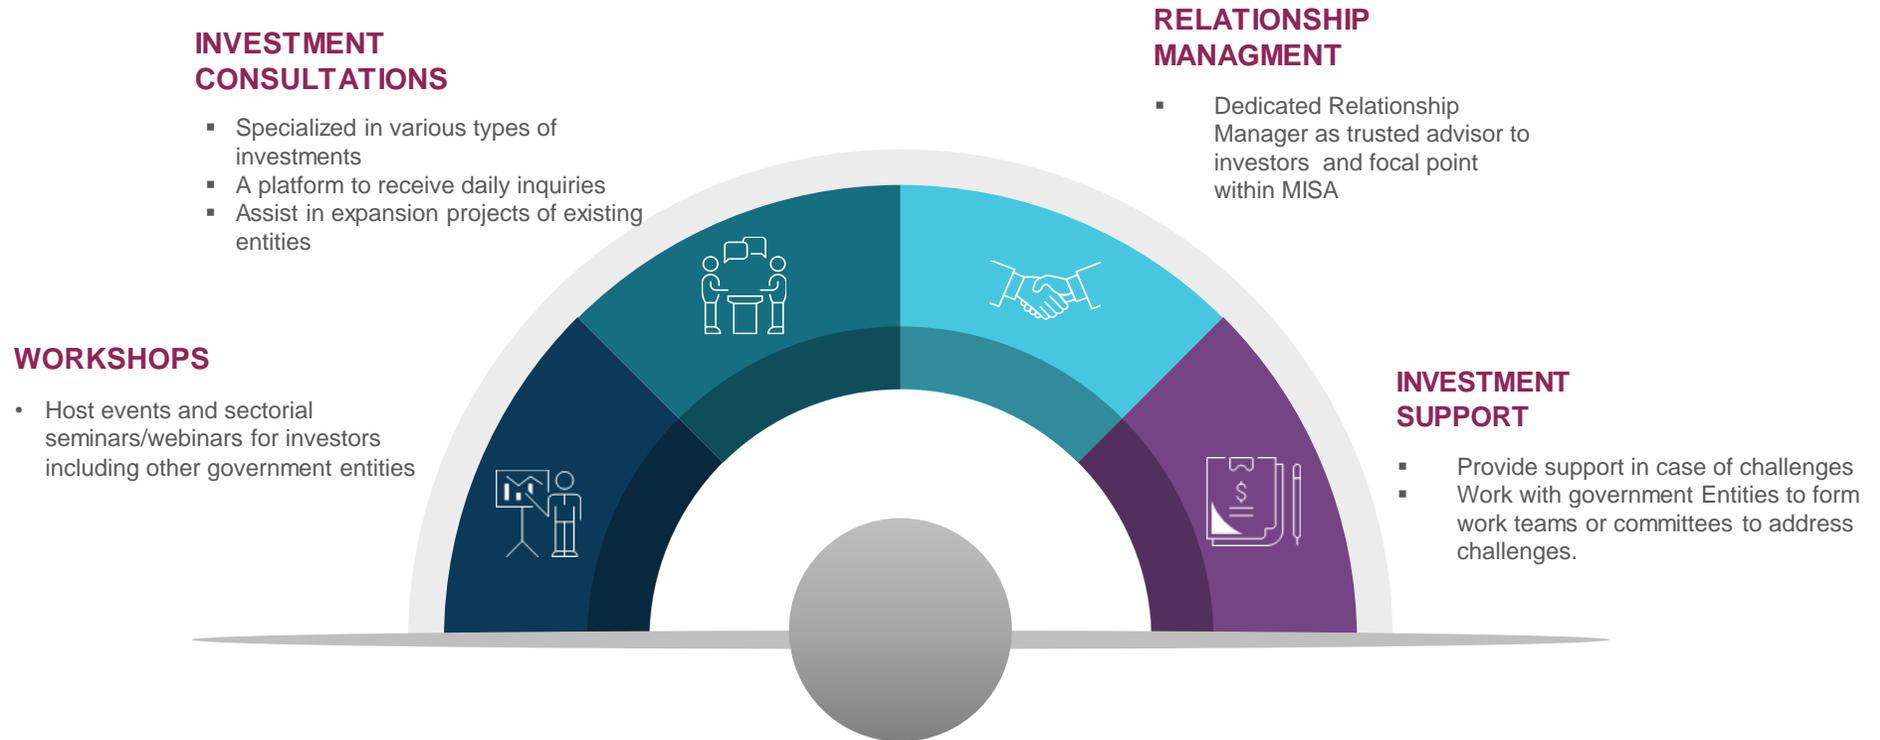

At every step of the investment cycle, MISA provides support and unlock hurdles
