THAILAND INVESTMENT AND EXPAT SERVICES CENTER

Thailand's investment promotion regime has long been among the most successful in Asia, due to consistent government policies that support the private sector as the engine of growth.

The One Stop Service Center for Visa and Work Permit was established on July 1, 1997, under the Regulations of the Prime Minister's Office. This center integrates the operations of three key agencies: the Office of the Board of Investment, the Immigration Bureau, and the Department of Employment. Its primary goal is to streamline visa and work permit processes for high-potential foreigners, experts, and professionals seeking to live and work in Thailand. The center's recent expansion to include Long-Term Resident (LTR) visas highlights Thailand's commitment to attracting and retaining top global talent.

Complementing this initiative, the One Start One Stop Investment Center (OSOS), operational since November 2009, further enhances Thailand's appeal to investors. OSOS provides comprehensive support for investment-related matters by offering investors greater convenience through a consolidated location in Bangkok.

With increasing demand for modernized services from investors and expatriates, BOI has established the Thailand Investment and Expat Services Center (TIESC). This new hub streamlines visa and work permit processes while facilitating investment efficiency. TIESC integrates the functions of the One Stop Service Center for Visa and Work Permit and OSOS, operating in collaboration with relevant agencies to enhance convenience for foreign investors and professionals.

KEY SERVICES OF TIESC:

- ▶ Visa and work permit services for targeted investors and expatriates
- ▶ Investment consultation, government liaison, and long-term investment support

TIESC is committed to simplifying administrative procedures, enhancing service efficiency, and creating a business-friendly environment to foster investor confidence and sustainable economic growth in Thailand.
