

One Start One Stop Investment Center (OSOS)

Thailand's investment promotion regime has long been among the most successful in Asia, due to consistent government policies that support the private sector as the engine of growth.

The One Start One Stop Investment Center or OSOS started its operation in November 2009. Its presence offers investors greater convenience in dealing with multiple agencies located throughout Bangkok. The OSOS, which operates as a part of the Board of Investment, brings together staff from investment-related agencies at a permanent location on the 18th floor of the Chamchuri Square Building on Rama 4/ Phayathai Road in Bangkok's Central Business District.

In July 2015, the OSOS took a further step to add more services as a part of government policy to enhance convenience for investors. More agencies participate in providing information and consultancy related to doing business in Thailand at the OSOS.

OSOS Extends its Range of Services

 **3** Provide local information and assistance on arranging on-site visits to potential locations.

 **4** One Stop Service Center (in central Thailand) for Special Economic Zones: providing basic information on Special Economic Zones and linking with other One Stop Service Centers located in each Special Economic Zone.

For businessmen interested in investing in Thailand, Thai or foreign, big or small, BOI-promoted or not, the One Start One Stop Investment Center offers investors a wide range of investment-related services.

 **1** Provide information and consultancy related to doing business in Thailand on topics such as obtain investment promotion privileges, company registration, obtain a foreign business license, factory license application and related procedures, customs clearance, import/export etc.

 **2** The highly-successful One Stop Service Center for Visas and Work Permits is located across the hall from the OSOS, offering added convenience. OSOS staffs also help investors with various applications to make sure investors understand what is needed in order to complete those applications.
