

Measures for Developing Highly Skilled Personnel for Modern Industries

Applicant Qualifications

Must be a juristic person (legal entity) with the objective of engaging in human resource development activities, such as:

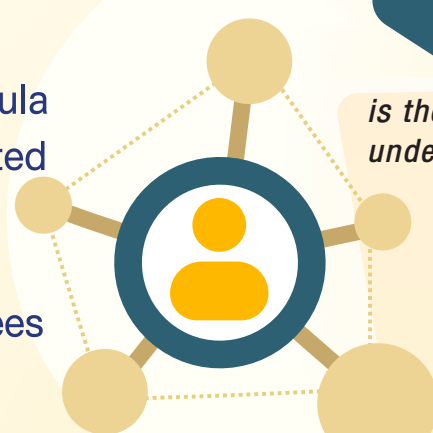

-  A private university
-  A training institute
-  A training company established by a public university
-  A leading private training company

Conditions

- ✓ The training curriculum must be certified under the BOI STEM++ program of the Office of National Higher Education Science Research and Innovation Policy Council (NXPO).
The curriculum submitted for approval must also be aligned with the targeted industries.
- ✓ Project proposals, along with curricula certified by NSTDA, must be submitted by the last working day of January 2026
- ✓ The minimum number of target trainees must be at least 1,000 per project.

Node and Subnode Model Management Mechanism

Utilize a network of training units as the primary mechanism for the effective management of training projects.

NODE

The parent host organization (node)

is the applicant seeking promotion under the measures.

- Manage and supervise the overall operations of the Subnode.
- Evaluate performance to ensure that it meets the established goals and objectives.

The host organization may organize and conduct training on its own, as appropriate.

SUBNODE

Subnode training units

include institutes, educational institutions, business establishments and workplaces.

- Provide on-site training according to the approved curriculum.
- Issue certificates to those who pass the assessment and report the results to the supervising Node.
